

# Who We Are

We are a group of survivors and allies passionate about supporting those who have been exploited.

## ● **Peer Advocacy & Mentorship**

We connect people with others who have had similar experiences and want to share their journeys of healing and recovery.

## ● **Clinical Care & Case Management**

Our goal is to increase resiliency, self-worth and self-reliance in the people we serve.

## ● **Groups**

We aim to create connections that encourage community and self-care.

Our offices are based in the MetroWest and Central MA regions. We provide virtual and in-person counseling, screening, and accompaniment across the state.

**All of our services are free and confidential.**
